Support

### Key Features and Functions

- Fast spectrum analysis covering frequency 9 kHz to 3 GHz
- 0.5 dB overall amplitude accuracy
- Efficient AM/FM, ASK/FSK demodulation analysis suites for IoT transmitter characterization
- 3 GHz tracking generator provides stimulus response measurement for component characterization
- Automation and communication interface with industry standard SCPI language support and USB/GPIB/LAN connectivity choices
- Ideal for R&D, low cost manufacturing, and RF education

## Rohde & Schwarz FSC3, FSC6 Series Spectrum Analyzers

Model: FSC3.03

[See pricing for all models on this page »](#)

**Condition:** New Test Equipment

- Frequency range 9 kHz to 3 GHz or 6 GHz
- Resolution bandwidths 10 Hz to 3 MHz
- High sensitivity  $< -141$  dBm (1 Hz), with opt. preamplifier  $\leq 161$  dBm (1 Hz)
- High third order intercept ( $> 10$  dBm, typ. 15 dBm)
- Low measurement uncertainty ( $< 1$  dB)
- Internal tracking generator (FSC313, FSC316)
- Storage of measurement results on USB stick
- LAN and USB interface for remote control and transfer of data
- Low power consumption (12 W)

# RF Explorer Spectrum Analyzer

## RF Explorer - 3G Combo

SKU 109990009

- Affordable digital spectrum analyzer
- Frequency band: 15-2700 MHz
- Spectrum Analyzer mode with Peak Max and Hold, Normal, Overwrite and Averaging modes
- Windows PC client extension

★★★★★ If I had only had one of these 50 years ago, or even 20 years ago, if only...

By [T. Marshall](#) on October 13, 2014

**Verified Purchase**

50 years in RF, and this device would have made so many things easier, if it had existed back then :) But it is in my toolkit now, and gets used self well. The latest (beta) noise floor really is accurate now - very useful. Oh, developing those WiFi and my HP 8569B for making and a 50lb precision HP in newbies is buy it - just

★★★★★ **Best Spectrum Analyzer for the price**

By [LuckOfTheIrish](#) on December 10, 2016

**Verified Purchase**

Excellent Spectrum Analyzer for the price. Made rugged and should last for years.

★★★★★ **Wonderful RF Scanner! Perfect for working on Wireless Microphones and IEM's**

By [R. Crisler](#) on February 28, 2016

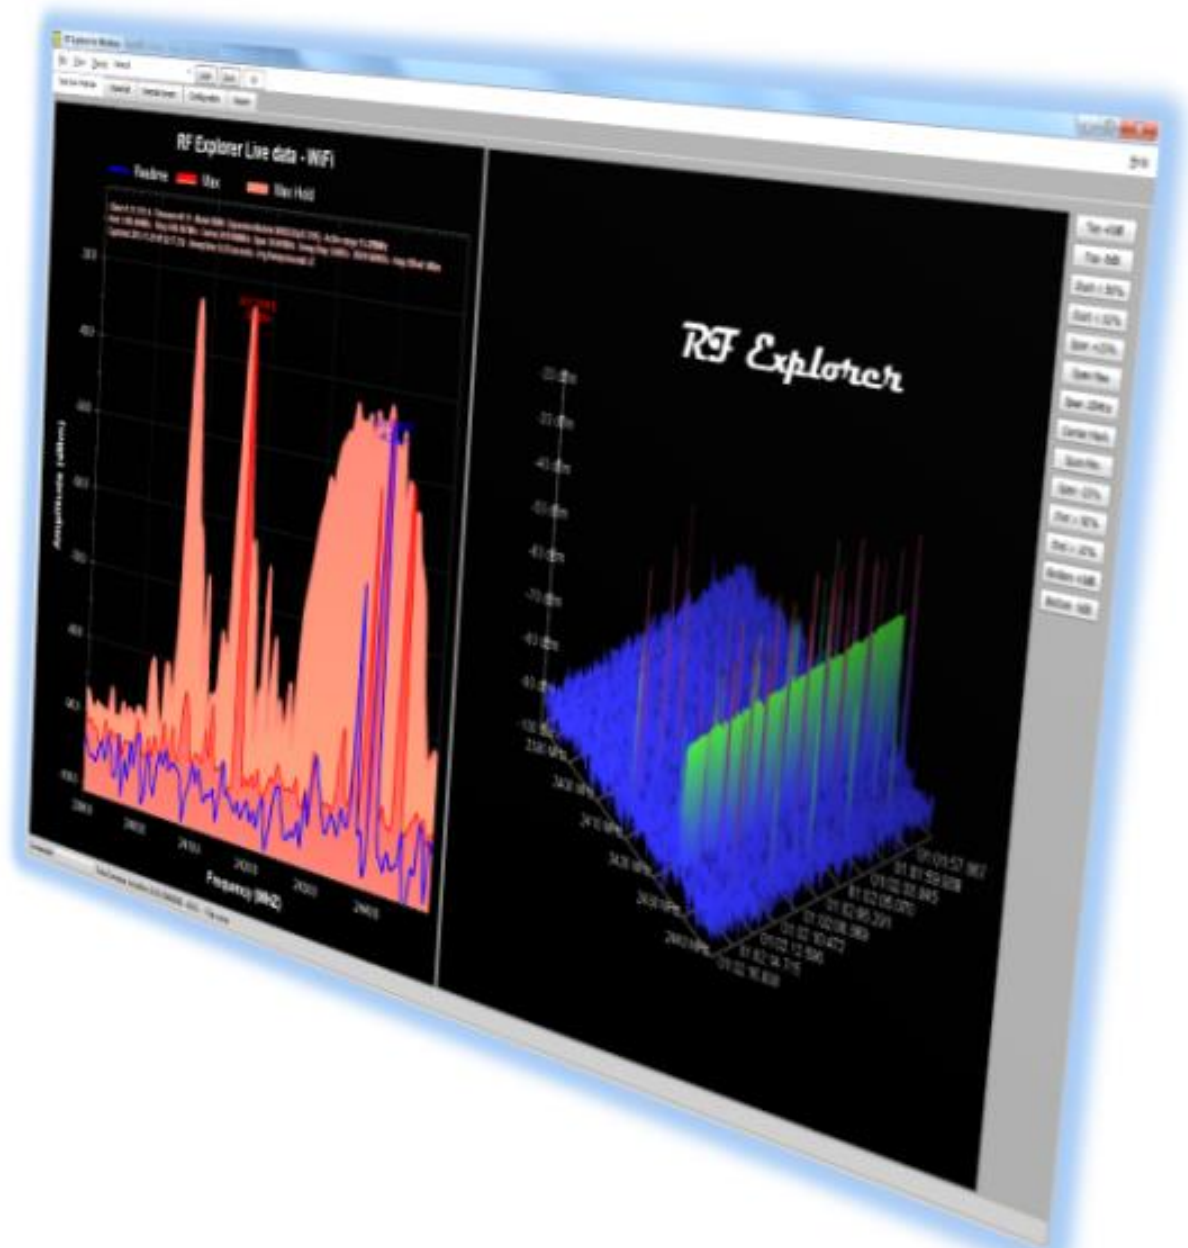

**Verified Purchase**

Works Perfectly! I use this as I travel around to different Church Venues to Coordinate their RF (Wireless) able to export the data using the included PC software or the optional 99\$ Mac software into Shure's Wi

Works Great! Ive attached some screenshots of the imported scan in WWB using my Shure directionals

# Conclusions

- RF is not Black Magic
- RF Explorer makes instrumentation economical and user- friendly
- Discover Signals on Environment – Spectrum Analyzer
- Inject Signal in a circuit/ Measures Network Parameter – Signal Generator
- Manuel is the best
